

Nation, unweighted**State-by-State, unweighted****CD-by-CD, unweighted****Nation, weighted****State-by-State, weighted****CD-by-CD, weighted**

Source: CCES 2018, ACS 1yr 2017. All CCES weighting uses YouGov's national weights, even for state/CD subsets in middle/right panels. CCES/ACS estimate the proportion of a {gender x age bin x education} cell (40 combinations) per geography (1 nation, 50 states, or 435 CDs).
